

Database Administrator

Purpose:

DGC is looking for a passionate Database Administrator to help support our platform, delivering the content of choice for casino operators and their players. You will be working in a small but high performing IT team to create something special. Online gaming is set to be one of the fastest growing industries in the US as regulation allows online gaming to expand into the various states.

Our RGS platform is designed for fast and efficient deployments and seamless integration into a high performing library of online casino games. You will need to assist with the hosting, management and updating of this technology to ensure our success.

As an IT DBA you will implement, design and improve processes relating to the administration of databases to ensure that they function correctly, perform optimally, preserve data and facilitate revenue generation.

If you are an outgoing and enthusiastic problem-solver with a passion for IT, this could be what you have been looking for. Please be prepared to work in a rapidly expanding team which will require the ability to support a rapidly expanding infrastructure and customer base, if you like monotony this is not the job for you.

Duties include, but not limited to:

- Set and maintain operational database standards on an ongoing basis
- Develop and maintain OLAP environments
- Develop and maintain OLTP environments
- Develop and maintain ETL processes
- Enforce and improve database integrity and performance using sound design principles and implementation of database design standards
- Design and enforce data security policies to eliminate unauthorised access to data on managed data systems in accordance with IT Services technical specifications and business requirements
- Ensure that effective data redundancy; archiving, backup and recovery mechanisms are in place to prevent the loss of data
- Set up configurable pre-established jobs to automatically run daily in order to monitor and maintain the operational databases
- Provide 24-hour standby support by being available on a 24/7 basis during specified periods

This job description is not intended to be an exhaustive list of responsibilities. The job holder may be required to complete any other reasonable duties to achieve business objectives.

DIGITAL GAMING CORPORATION LTD

Registration number: 08761407 (England and Wales). VAT number: 224618223
