

## Product Owner

### Purpose of the Role:

Reporting into the Product Manager the Product Owner will be the key stakeholder representing Users and Business in working together with our Technology Teams to deliver high quality software products. Reporting into the Product Manager, the Product Owner will be responsible for validating product ideas with reviews of plans and work-in-progress with Customers, Architects and Product Teams.

Our dynamic environment is fast paced, using Agile and self-organizing principles in order for our teams to deliver the highest quality products.

### Duties will include, but not limited to:

- Work with Stakeholders to help develop the product strategy and business cases.
- Define and clearly communicate a prioritised roadmap plan that implements the strategy, including measurable improvements.
- Understand high level Epic requirements and decompose these into smaller packages of work for implementation within Scrum Team.
- Build and maintain excellent Stakeholder relationships.
- Actively seek input from internal and external Stakeholders and complete competitor analysis to keep abreast of industry and best practice.
- Work with the Business Stakeholders to produce detailed user journeys, acceptance criteria and designs ready for implementation.
- Assist with product /system/process documentation to support Users and Business continuity.
- Work with the scrum Team and Product Manager to deliver key milestones, including managing and prioritising the story backlog to ensure the work items delivered meet expectations.
- Provide regular updates to stakeholders on strategy, successes, learning and progress on product vision.
- Overall owner of the product backlog, keeping the Business and Tech Teams informed of work delivered.
- Understand the strategic and competitive position of the product, carry out competitive analysis and deliver value adding increments.
- Lead and inspire the Scrum Team to instil quality, encourage innovation and reduce defects.

*This job description is not intended to be an exhaustive list of responsibilities. The job holder may be required to complete any other reasonable duties in order to achieve business objectives.*
